Background

Child Welfare Digital Services (CWDS) currently maintains (3) websites which provide valuable resources to CWS social workers, probation officers and county technical staff.

The goal is to consolidate the websites into one website.

The first step toward completing this consolidation is migrating the County Contacts page to the new environment.

The other web applications such as the Data Deletion Request (DDR), Move, Add, Change (MAC) requests and the Server Based Computing (SBC) will soon be migrated as well.

Until that complete migration occurs, county SPOCs will continue to edit access to those applications utilizing the current CWS/CMS Web site.

Please refer to **County Logon Area – User Guide V.5** available on the CWS/CMS Website.

Link: <https://www.hwcws.cahwnet.gov/guides/default.asp>

Purpose

The purpose of this guide is to provide Single Points Of Contacts (SPOCs) with the steps to add a new user to the new County Contacts page of the cwds.ca.gov website, edit their profile information, delete a user, and reset their password.

For instructions on how a Registered User can change their password or edit their profile information, please refer to [Appendix B](#).
